WE DESIGN

EAST MEETS WEST

Belgian founder, Vincent Cantaert, inspires and leads a team of talented, cutting edge, globally educated and experienced Asian designers. Working together with veteran furniture engineers, the Mamagreen Design Lab is an integral part of our manufacturing facilities and one of the core pillars of our success.

The focus of our design philosophy is the discovery of a new harmony; a balance between shapes, textures and materials, a balance between each furniture piece and its surroundings, creating a space where mind and body can relax: the ultimate in outdoor luxury.

MAMAGREEN has earned numerous industry awards from the International Furniture Fair in Singapore, Design Excellence awards from the International Casual Furnishings Association (ICFA) including Best of Show, a Design Innovation award from the American Society of Interior Designers (ASID), and the prestigious German Design Award.

WE MANUFACTURE

100% COMMITTED TO QUALITY

Based out of our company owned, company operated manufacturing facility in Java, Indonesia, one of MAMAGREEN's greatest strengths is not being dependent on subcontractors. Our German trained management team has an in-depth knowledge of materials and production processes, creating unique furniture pieces that are tested for durability in any outdoor environment.

Our entire line is produced in-house by a team of more than 400 employees with a majority of processes and final finishes being completed by hand by skilled artists, along with dedicated precision tooling.

WE CARE

OUR PEOPLE

We have grown together with the people who started the Indonesian production facilities, through challenging and good times. Keeping the team motivated, is the result of creating perspective, continuous education and training and improving living standards; not only of the workers, but also their families. In-house safety and health measures are state-of-the-art, allowing our skilled artists to create unique furniture pieces.

OUR WORLD

MAMAGREEN furniture is manufactured using a majority recycled or recyclable materials. More than 90% of the teak is carefully sourced from abandoned buildings, with the remainder coming from sustainably harvested teak.

It is our goal to create furniture pieces that last, selecting MAMAGREEN is making a conscious choice for style combined with durability.

AIKO

Design by Vincent Cantaert

AIKO LOUNGE modules can accommodate 2 to 20 people. There are endless options to match the required level of leisure and relaxation. The AIKO base is 85 x 110 cm, and can be used in either deep-seating or comfort mode. Very practical rolling side tables are available in 2 dimensions, plus a versatile coffee table, that can also be used as either a corner or end component. The AIKO chaise is a stand alone lounger, can become a double daybed or may be included in any modular combinations. Sofa, L or U-shape configurations are all possibilities.

The upcycled teak matrix base highlights both naturally occurring, and handcrafted distress marks. The Drift-Look incorporates Original or Espresso finishing, and is assembled using traditional box-joints, crafted specifically for robust performance. Stunning Italian High Pressure Laminate (HPL) forms the back of the base, offered in either Alps White or Slate. Upholstery is made from the high density, easy maintenance Sailcloth fabric range, manufactured by best-in-class outdoor textile specialists, Sunbrella: choose color and pattern from Shadow, Sailor or Seagull Grey. The signature collection feature is a gorgeously thick bolster, providing optimal ergonomic support, and facilitating ultimate comfort in informal lounging.

DRIFT-LOOK TEAK

MAMAGREEN drift-look teak is showcasing both natural and handmade distress marks. This 'extra-distressed', recycled teak is then finished, either 'as original', or in rich espresso.

Highly contemporary, texture-rich Drift-look teak is used in our iconic AIKO Collection.

For the Aiko collection, we offer a memory outdoor foam core covered in a water-resistant barrier, therefore some water can remain trapped between the cover and the inner liner. Drying and airing separately, extends the longevity of the cushions. Storing the cushions vertically with the mesh at the bottom side, will improve air circulation.

The purpose of the ventilation holes at the side of the cushions, is to avoid trapping air or “ballooning”.

Tip: enjoy your lounge furniture instantly after a rain-shower using protective covers, but remember to never cover wet cushions with a rain cover, especially for an extended period of time

TABLE TOP

Premium Teak | Smooth (T24)

Hyper-modern, marine-grade furniture for cruise ships and luxury residential or commercial spaces.

Introducing 316 mirror polished stainless steel, the best marine-grade steel and combined with premium performance textiles and low maintenance surfaces, "Albatross" is designed to withstand the impact of coastal and at-sea environments.

Create the deep-seating configuration you require. The thick cushions, made of quickdry foam and Sunbrella covers, are supported by an exposed webbing, and have a round bolster and lumbar pillows as backrest, offering perfect ergonomical comfort.

Matching low tables have an HPL top and a yacht-style teak grating removable tray.

The oversized sunbed comes with an integrated table, handy wheels and a pneumatic, smooth reclining system.

begonia
MAMAGREEN Design Lab

The BEGONIA collection is our approach towards conventional picnic setting. The round shape ensures added intimacy with your loved ones. The shades of the honey color amplifies the blossoming effects of the Begonia, bringing about warmth to your familiar atmosphere.

Benches are available with a faux-leather backrest, or backless. The table has an integrated rotating tray, to add to the sharing experience.

BEGONIA is available in two different table sizes : diameter 50" (127 cm) and 62" (158 cm), allowing seating for up to 10.

BEGONIA Bench for Table Ø 50" / 127 cm

Long, low horizontal blocks of mixed materials layer together to create distinct architectural lounge groupings with a very contemporary look: Introducing “Boulevard”. Designed for luxury residential use and high-end hospitality, this collection is strikingly handsome, low maintenance, versatile, and comfortable.

Available in 5 colors (iron black / cotton) the durable powder-coated aluminum base supports ergonomically shaped cushions in an attractive range of durable Sunbrella textiles. The same durable powder-coated aluminum pairs with low maintenance Italian High Pressure Laminate (HPL) to make up the Boulevard low tables.

DAISY

MAMAGREEN Design Lab

“a flower blossoms for its own joy”
- Oscar Wilde

Just like how being in a field of daisies brings back good memories, MAMAGREEN's DAISY collection is designed to create a summertime mood and enhance positive vibes.

Designed for both residential and hospitality use, DAISY is perfect for small spaces and balconies. This versatile range will fit perfectly at home in an urban oasis, a multi-family rooftop, senior living projects, or at a restaurant or bistro, with options for dining, bar and lounge.

With unlimited options, thanks to our wide range of colors, and the unique mix of materials, design lovers will find the perfect spot for their own DAISY, inside or out.

Different tones of handwoven outdoor wickers shape the Daisy Mae barrel back chair.

Designed with a focus on ergonomics, style and low maintenance.

Custom Configurations Available

DAISY RAE designed by shaping rope, combining textures, space and light. Comfortable and playful.

Three distinct leg options are offered for the DAISY dining chairs, depending on style and function: tapered aluminum legs, a swivel base or teak round legs.

With its sturdy powder coat base, the swivel versions are great for outdoor clubs, rooftops or high wind areas.

MAMAGREEN Design Lab

For the first time, Mamagreen has created a complete “full-teak” series with dining, bar and casual options. Premium smooth sanded teak is selected for color harmony, then matched and pieced together until perfection.

Naturally easy to combine with any other design elements, the neutral tones of teak blend seamlessly into classic and contemporary exteriors and interiors. Curved lines soften the minimalist shapes, and accentuate the natural beauty of the material.

The elegantly formed seat and backrest make the Estate chairs comfortable, with optional padded seat cushions available. The sled base and the armrest follow the rounded lines of this attractive design.

Estate pedestal tables are a fit in hospitality projects and great for small spaces. The self-adjusting gliders ensure stability. The highlight is a square dining table, seating 8, for a unique, intimate, residential setting.

For a more conventional family size we offer also a rectangular dining table. Bar, counter and low tables come in various dimensions. Estate tables come with an HPL inlay option for added color variations. Premium quality teak is only harvested from sustainable farms.

munia
MAMAGREEN Design Lab

Inspired and named after the Munia bird, masters in weaving uniquely shaped nests, MUNIA is a creative luxurious deep seating system allowing unique configurations.

Designed to create a plush informal lounge feeling with flair and distinction, MUNIA has comfortably thick cushions with supreme casual ergonomics.

Two different weaving styles are available for the backsupport:

MUNIA NAYA woven in thick braided textile

MUNIA MO woven in multicolored fiber

The backrest comes also in two different heights: regular or high, offering some additional privacy and shade.

The range consists of oversized round seaters (Hug) and daybeds (Island and Dome), as well as a sectional system in various shapes, with matching tables in different heights.

MUNIA, made of performance materials and a sturdy frame with a sled base, is designed for both luxury hospitality and residential use.

Our large selection of colors and materials, creates multiple possibilities to tailor the style of the Munia furniture pieces, and adapt to any outdoor space.

DHANA
MAMAGREEN Design Lab

With a range of neutral and vivid color combinations, Ohana can find itself at home in most exterior and interior settings.

Ohana's frame is woven by hand with an Olefin rope wrapping around a sturdy powder coated aluminum frame. The semi-soft seat cushion, supported by a mesh seat deck, and a fluffy back pillow ensure a comfortable seating experience.

The Ohana dining chairs can complete any MAMAGREEN dining table while the Ohana lounge chairs are a perfect fit for balconies, living rooms and perfectly balance any of our sectional sofas.

The exceptional Ohana balloon chair is a stunning statement piece, available in both dining and lounge height.

This series of sled base dining and lounge chairs can be used both in residential and commercial environments.

A weighted version is available for high wind areas and rooftops.

PRADO
MAMAGREEN Design Lab

We completed our dining series with the contemporary edgy-looking PRADO.

The dining table consists of an HPL top available in various stone motifs, on a solid galvanized metal base shaped in a minimalist angle.

Available in three different dimensions, the largest table offers ample place for 10 chairs.

To complete the Prado set we redesigned the classic director's chair. The padded seat and back, made of Elios mesh by Serge Ferrari, allows comfortable sitting. The armrests fit under the clearance of the dining table and have optionally a handsome teak inlay. Of practical use is the folding mechanism, allowing the chair to be easily stored, ideal for transport, storage on a yacht or in a restaurant.

With a large selection of powdercoating colors and textile options, the Prado chair can be configured to match any style.

Both chair and table are designed to mix & match with other items of our collection.

** : Suitable for Rooftop

SOMBRERO CANOPY

352

The SOMBRERO canopy is versatile and highly customizable. Various roof and wall options create privacy and shade. Made with a sturdy aluminum frame, these canopies are suitable for hospitality and residential. In case of heavy wind or storm and snow, open or remove curtains to avoid damage.

Warranty : up to 3 Years

Wind Rating : up to 60 Mph

Application : Backrest

W21 - HERON WHITE
Application : Backrest

TEAK

Teak (scientific name *Tectona Grandis*) is a premium hardwood, native to South East Asia, with a very high natural oil content. Highly resistant to rotting, fungi, warping and water absorption, teak remains durable even in an extreme climate.

Exposed to sunlight, the color of teak will gradually change from honey brown to silver grey. This weathering does not affect the performance or quality of the timber. Various products are on the market to clean, protect or restore teak.

RECYCLED TEAK

Where possible, we use reclaimed teak from abandoned buildings. Recycled teak has character: from holes where bolts were used, to nail holes, damage from hinges and other imperfections; all combine to give recycled teak its unique look. We do not attempt to hide these characteristics; we feel that each aesthetic imperfection in the wood adds to the exceptional feeling in the furniture.

T31 - RECYCLED TEAK BRUSHED

T30 - RECYCLED TEAK SMOOTH SANDED

PREMIUM TEAK

Grade A sustainably harvested teak is carefully sourced from responsibly managed and fully certified teak farms in Java.

Smooth sanded teak looks best with simple, regular cleaning, especially if the furniture is placed under trees or used regularly for dining. Wash with a mild household soap and lukewarm water to avoid mildew, caused organically by dirt gathering in the grains and notches.

All Mamagreen teak furniture is treated with Golden Care "Teak Shield", whose protective layer protects against marks, without stopping the silver grey weathering process.

T24 - PREMIUM TEAK SMOOTH SANDED

WEATHERED SILVER GREY

DRIFT-LOOK TEAK

MAMAGREEN drift-look teak is showcasing both natural and handmade distress marks. This 'extra-distressed', recycled teak is then finished, either 'as original', or in rich espresso.

Highly contemporary, texture-rich Drift-look teak is used in our iconic AIKO Collection.

F37 - ESPRESSO FINISH

F36 - ORIGINAL FINISH

HPL

Italian manufactured High Pressure Laminate (HPL) is an eye-catchingly modern element for outdoor furniture, which will complement any residential or commercial space. Advanced technological manufacturing involves bonding sheets of kraft paper and aluminum with animoplastic resins, using high pressure and heat.

HPL tops do not require particular maintenance that goes beyond normal cleaning with hot water and liquid soap. Common detergents and solvents, thinners and steam can be

used for stubborn stains. Avoid, however, any alkaline or bleach products. Stains on Alpes White could be more visible and a bit more difficult to clean, compared to multi colored stone motives. As HPL has anti-static capacities, table tops do not attract dust. Wax or wax based products should not be applied as protection.

Extreme UV-exposure will cause some discoloration, without impacting the structural integrity of this material; protective covers will extend the beautiful look for many years.

T75 - CONCRETE

Application : Table Top / Tray

ALUMINUM

Rigid, yet light weight, alloy 6063 aluminum is a sturdy metal, very well suited for outdoor furniture, with structural anti-rust capacities. Powder coating protects against surface corrosion. Applying electrostatically charged dry paint, baked in an oven, the paint becomes a protective layer with a uniform color and texture.

Powder coated frames can be easily cleaned with a soft brush and soapy water. To handle the occasional scratch mark, we provide touch up kits in a similar color.

GALVANIZED STEEL

Powdercoated Galvanized Steel, protected with a zinc layer, has high corrosion resistance. Furniture made with a galvanized steel frame is very sturdy, and suitable for windy areas such as rooftops, but not advised for beachfront properties.

The industrial production process creates a random textured surface which is part of the design.

STAINLESS STEEL

Unmatched in strength and beauty, stainless steel frames are extremely suitable for most outdoor environments.

We generally use 304 stainless steel, an iron alloy with a high corrosion resistance, thanks to its unique chrome addition and nickel content, in a hairline finish, with subtle continuous, uni-directional grind marks. This finish will last well, when regularly cleaned, however, susceptible to tea staining is not advised in a marine environment, exposed to chlorinated or salt water.

A number of our collections are available with powder coated 304 stainless steel frames. This finish will perform very well - also in a coastal environment - protected by a UV resistant, durable, low maintenance powder coating on top of a strong epoxy primer.

Marine grade 316 stainless steel in a shiny mirror look finish is used in the ALBATROSS Collection, and available for custom projects, such as beach front properties or cruise ships.

- Galvanized Steel
- 304 Stainless Steel

Tip : Let the furniture breathe, avoid covering for long periods.

Cleaning will extend the beautiful looks of the furniture.

POOL FURNITURE

FRAME :

- Ultra Durable Powder-coated Aluminum
- Teak
- 316 Stainless Steel

Tip : Use mesh textiles as much as possible.

Tip : Use protective covers when not in use (Do not cover dirty or wet furniture for extended periods of time).

Clean and maintain your furniture regularly.

WARRANTY

MAMAGREEN furniture pieces are designed, developed, and manufactured for residential, commercial, or hospitality outdoor spaces. Manufacturing is done by skilled craftspeople in MAMAGREEN's own facilities. All items are carefully checked during each production process, using strict quality control standards, and inspected and securely packed by MAMAGREEN.

Part 1. Damage upon delivery

MAMAGREEN advises buyers to always inspect all boxes and all products upon delivery.

If packaging and boxes show any sign of damage, please inspect them immediately upon delivery, and prepare a proof of damage acknowledgment from the freight company. Note that in some cases furniture can be damaged, due to handling or transport, without showing any damage to the packaging.

If products show any sign of damage upon delivery, due to freight, handling, transport, transit, or delivery, or if a manufacturing defect is suspected, it should be reported by the original buyer immediately (within five (5) days of receipt of goods), to MAMAGREEN, in writing, and fully documented, including damage acknowledgment from the freight company, photography, description of damage, production code and other relevant information.

All deliveries are shipped at the purchaser's risk, unless specifically otherwise agreed upon in writing. Certain products can be shipped by courier; other products, however, require blanket-wrapped, specialized transport. MAMAGREEN recommends specific transport companies, but the agreement between the buyer and the transport company, including any relevant insurance, is the responsibility of the buyer.

In case damage was caused during unpacking, transport, transit, freight or delivery, MAMAGREEN will look for a relevant solution, together with the buyer and the transport company, taking into consideration relevant insurances.

Note that damage caused by third parties, never absolves the buyer to settle any outstanding amounts.

Part 2. Damage due to manufacturing defects

MAMAGREEN warrants that its products are packed and shipped in good condition, and are free from manufacturing defects and defects in workmanship and materials for a specific period of time

MAMAGREEN furniture is partially handcrafted from natural, recycled and industrial materials; random imperfections, minor differences in weight or dimensions, texture, and color differences as well as weathering due to exposure to the elements, are considered normal and are excluded from the limited warranty.

In case MAMAGREEN products are well maintained and used correctly, they will give pleasure for many seasons. In the unlikely event that something goes wrong we will do our best to make things right.

Metal Frames

- Residential use - Warranted for **FIVE** years, starting from the date of delivery
- Commercial use - Warranted for **THREE** years, starting from the date of delivery

Structural damage, caused by a manufacturing defect, that prevents its intended use

This excludes normal wear and tear, such as, but not limited to: superficial changes, discolorations, abrasive wear, scratches and minor peeling of powder-coated surfaces, tea staining on stainless steel frames. Limitations as described below, apply.

Teak / HPL

- Residential use - Warranted for **THREE** years, starting from the date of delivery
- Commercial use - Warranted for **TWO** years, starting from the date of delivery

Structural damage, caused by a manufacturing defect, that prevents its intended use

This excludes normal wear and tear, such as, but not limited to weathering, color and texture changes, minor cupping, minor cracks or bending as well as random imperfections in natural materials and recycled teak (examples: knotholes, branch marks, hairline cracks, nail or bolt holes, construction marks and stains caused by wood-sap). Limitations as described below, apply.

Textiles / HPL / Weaves / Hardware

- Residential and Commercial use - Warranted for **ONE** year, starting from the date of delivery

This excludes normal wear and tear. Limitations as described below, apply.

Note that replacement parts, cushions, and cushion covers are available for purchase.

Part 3. Limitations

Used as intended, maintained correctly, and well protected in extreme circumstances, MAMAGREEN furniture can be enjoyed for many years.

Limitations due to non-intended reasonable use

Our warranty is developed for the intended reasonable use, and any damage which occurs from the following causes is excluded from this limited warranty: smoking, sharp objects, misuse, abuse, renting or borrowing, alterations, accidents, placement of excessively hot items on the surface of the product, used by people who weigh above 150kg/300lbs, damage by pets or wild animals, sitting on backrests or armrests, sitting on wet seats, use for transport or any other use beyond the intended reasonable use of the furniture.

Limitations due to care and storage issues

Any damage due to improper storage, improper use of protective covers, incorrect maintenance, the application of improper finishes or care products, insufficient routine cleaning, non-replacement of worn glides, or lack of lubrication of mechanical parts will be excluded from the limited warranty. Maintenance is the sole responsibility of the owner/user and is required to keep the warranty in effect.

Limitations due to extreme conditions

Any damages which occur from the following causes are excluded from this limited warranty: natural disasters, extreme weather conditions, extremely high winds, floods, fires, earthquakes, accidents, war, violence, terrorism, or any other extreme condition.

Limitations for “Outlet” furniture pieces

Furniture from our outlet is sold “as is”, meaning that it might have been used for photography, display, or showroom purposes, and might show certain signs of use, and our limited warranty doesn’t apply.

Part 4. Claim procedure

Written documentation is required prior to any judgment regarding defective products, including:

- Copy of the invoice/proof of purchase
- Photography of the relevant furniture, clearly illustrating the defect
- Description of the product, code, and manufacture date
- Description of the defect, and the time and circumstances when the defect was discovered
- Description of the packaging, clearly showing if the box was closed or opened upon delivery

Claims should be submitted either to the original place of purchase or fully documented to info@mamagreen.com.

In the case that the damage is caused by a manufacturing defect, and within the limitations of the warranty, MAMAGREEN will, at its discretion: replace or repair the damaged product or parts or offer a credit to replace or purchase new products.

Shipping of replacements or replacement part is subject to a lead time of twelve to fourteen (12 – 14) weeks. Expedited or substituted replacement parts are subject to express charges. If the product is no longer sold by MAMAGREEN, MAMAGREEN has the right to provide an appropriate replacement, as determined by MAMAGREEN.

Part 5. Maximum liability

Maximum liability is the purchase price of the failed product in the form of a credit to replace or purchase a new product.

MAMAGREEN will not be liable for any consequential, economic, or incidental damages or delays resulting from a product defect. In all cases, the warranty claimant will be solely responsible for all transport or freight costs resulting from the warranty claim.

MAMAGREEN will not cover any damage or injuries to third parties, such as: but not limited to injuries to people or animals, damage to clothes, floors, walls, furnishing, and any other consequential damages.

Implied warranties don’t apply.
